

Chainbridge Solutions Achieves Status as a MicroPact Platinum Partner

Fairfax, VA, 11/12/2019: Chainbridge Solutions Incorporated is proud to announce that they have achieved Platinum Partner status within MicroPact's Global Alliance Program. Over the last decade, Chainbridge Solutions has invested heavily in the mastery of MicroPact's entellitrak platform, training resources, and building "jump-start" prototypes for Background Investigations and Personnel Security Case Management and Office of Inspector General Investigative solutions.

This newly minted Platinum Partner has grown their single-developer practice into a thriving entellitrak Center of Excellence with Subject Matter Experts across all business functions including experienced Project Managers, seasoned Business Analysts, and stellar entellitrak developers. Chainbridge Solutions provides its customers with knowledgeable entellitrak agile teams who come prepared with experience and expertise in entellitrak on Day One. These teams offer continuous innovations and the synergy that only comes from working closely together on multiple solutions, completing successful deployments, and knowing how best to leverage each other's strengths.

Aarti Smith, President and CEO of Chainbridge Solutions, stated "We are extremely excited to have achieved the highest level of partnership with MicroPact and are committed to continuing our investments in entellitrak and expanding our knowledge and experience with the platform." Stephen Bailey, Vice President of Solution Delivery, added "Our team's hard work innovating in the entellitrak platform helped us reach the Platinum level and demonstrated that we can use entellitrak to deliver value to our customers."

Representatives at MicroPact have also praised Chainbridge Solutions for their work:

"The MicroPact Global Alliance program is designed to give our partners the connections, technical skills, and expertise to sell, configure, and maintain entellitrak solutions. Chainbridge is a shining example of how the program works best—when the partner organization makes full use of the resources we provide and leverages them to win new business and solve their customers' business challenges," said Brian Combs, SVP of Global Alliances for MicroPact.

"It has been great to collaborate closely with Aarti Smith and everyone else on the Chainbridge team," said Justine Glatter, Global Alliance Manager. "I've been privileged to witness the focus and drive that has led them to achieving Platinum Partner status in our program."

"On behalf of everyone at MicroPact, I congratulate the team at Chainbridge for their hard work and for the successful projects that have allowed them to reach the Platinum Partner level in the Global Alliance program," said Bob Ragsdale, Director of Marketing for MicroPact. "We look forward to deepening our relationship even more as MicroPact moves forward under our new Tyler Technologies ownership."

About Chainbridge Solutions:

Chainbridge Solutions is an SBA 8(a) certified, woman-owned small business, building automated workflow solutions for the Federal Government and private sector. Chainbridge Solutions specializes in existing and legacy application modernization through an agile methodology focused on human-centric design, strong customer engagement, and rapid delivery of results through multiple iterations. Leveraging machine learning and robotic process automation, Chainbridge Solutions delivers smart, innovative solutions that offer workflow efficiencies, cost savings, and a user-centric experience to their customers.

About MicroPact:

MicroPact is a low-code case management application platform vendor and wholly owned subsidiary of Tyler Technologies, the largest software company in the U.S. solely focused on providing software and services to the public sector.
